Product Description

A luxurious furniture piece that was born from a simple idea and the BARS collection serves as an example. Modulated with solids and voids stripes, this container family is available in different sizes, which alter in both the height and width of the piece. It offers numerous possibilities of internal space usage, ranging from shelves to drawers, creating a furniture piece which can best suit the needs of its buyers. Both, the structure and the stripes are made of walnut or oak wood, thus giving the furniture a monolithic image, which refers back to the ebanistic Lombard culture. The structure, proposed in high or low version, is made of veneered or lacquered panels. The stripes, made of solid wood, decorate the entire structure or only the doors. Inner spaces equipped with shelves in the same veneer of the structure. Upon request, sets of two drawers in veneer are also available. Please inquire about customizations. Note this is a handmade piece some variations of wood stain color may occur. Hand Made in Italy.
