## Product Description

With the introduction of the un-upholstered Beetle Stool, the collection has bloomed into a chair series with unlimited possibilities. The Beetle Stool is no longer only an upholstered counter chair but also available with a polypropylene Hi-Rek plastic shell, giving it a lighter expression with notable durability at a lower price point. The counter chair's subtle matte texture offers a soft tactility where its outstanding sitting comfort is obtained. Thanks to the wide spectrum of colour and base options, the un-upholstered Beetle is an ideal solution for both formal and informal spaces alike. Mix and match between the seven harmonious colours to create a personal expression. The height of the counter chair contributes to its light expression, which makes it blend into any interior naturally and with grace. The design of the seating collection reinterprets the characteristic elements of the beetles' sections: shape, shells, sutures, rigid outside and soft inside. Plastic glides included, felt glides available on request. The stool is available unupholstered shell, seat upholstered or seat and back upholstered. Also available fully upholstered. The collection includes chairs, barstools, sofas, and lounge chair.
