- #38911 - Caiigo Suspension Light - - \$ 860.00

Product Description

In Venetian dialect “caiigo” means fog and the blown glass used for the lamp's diffuser emerged from a tradition which stretches back a thousand years in this lagoon city. Its characteristic nuanced effect, somewhere between white and transparent, is the result of the artisan expertise of master glass-makers who make every single lamp unique. LED light shines optimally downwards melding perfectly with its precious blown glass. UL listed. Please inquire for multiple fixture configurations.
