Product Description

Fluted Coloured Reflective Panels- Reflective, colored patterned glass panel designed to add a palette of color to spaces. The piece disperses light through it's rippled reflective surface creating a blended dimensional palette of color. The pieces visually shift creating different visions from different perspectives. The piece works as an artistic object for spaces and has been designed with the intention of use for larger-scale interior and architectural projects. Designed in 2019. Handmade in the Netherlands.
