

Crash Dresser

Product Categories: [Dressers](#), [Storage](#)

Product Page: <https://propertyfurniture.com/product/crash-dresser/>

Product Description

Series of storage cabinets characterized by their strong design, with diamond faceted doors (folding or hinged) or with drawers. The working for the faceted doors is always made by starting from a single block of solid multilayer wood of cm.9 thickness, worked with CNC processes and then with hand application of the shaped veneers with high thickness. With this way we maintain the way of the grain of veneer, in spite of different and unsymmetrical thicknesses. The block is then cut to create the single fronts of doors and/or drawers. It's a combination of technology with skilled hand working. Available upon request the internal under-top LED lighting with opening sensor. The collection includes: cabinet, dresser or nightstands. Please inquire about customizations. Note this is a handmade piece some variations of wood stain color may occur. Hand Made in Italy.
