

## Cross Table

**Product Categories:** [Tables](#)

**Product Page:** <https://propertyfurniture.com/product/cross-table/>

### Product Description

Bold silhouettes mark the domestic setting in a geometrical manner, with a clear definition of space. Cross is an extending table with anodized aluminum legs. The glass top is embellished by engraved lines and it is available in various finishes. The extension, which is made of lacquered wood, is designed to increase the length of the table top easily, while retaining ultimate solidity and stability; the legs, which move sideways to fit at the ends of the top, do not get in the way of the guests' legs.
