

## Cymbal Pendant Light

**Product Categories:** [Lighting](#), [Pendants](#)

**Product Page:** <https://propertyfurniture.com/product/cymbal-pendant-light/>

### Product Description

Cymbal is a simple yet intriguing pendant lamp. Simple cymbal shaped disks of black or chrome steel diffract the light in every direction and trick the perception while reflecting the environment. Cymbal will enrich a traditional filament lamp but will also work with a white bulb for a more graphic and sober feel. When looked at horizontally, the chrome version almost looks like transparent glass while in fact, it shows the distorted reflection of what is behind the lamp. As a result, Cymbal will 'melt' into any background. Light Bulb: 60W(Not Included). Designed in 2019.
