### Product Variants

- #73204 - Dedal Shelving - - \$ 450.00

### Product Description

Mathieu Matégot's Dédal Shelf is a result of his passion for the groundbreaking and innovative pairing of metal tubing and perforated metal sheet. The Dédal Shelf is designed in 1955 and holds the advantages that Rigitulle entails - the metal's hardness as well as the fabric's lightness. Though apparently simple, the Dédal Shelf is often composed on several levels. The graphical shape matches each other

and when grouped together they form a new design, almost a geometric pattern - especially when the shelves are juxtaposed. The bookcase is made of perforated metal sheet.

## Product Attributes

**Dimensions:** 35.5"W x 7.5"D x 19.5"H **Color:** Metal Semi-Matte:

Cream White

Mustard Gold

Prairie Sand

Rose

Ruby Red

Smoke Green

Soft Black

Stone Grey
