Product Categories: [Storage](#), [Wall](#)

Product Page: <https://propertyfurniture.com/product/eclissi-wall-hanging-cabinet/>

Product Description

Eclissi is a perfect round inscribed in a circular structure, which hides inside a holder. The external structure is made of curved multilayer wood, lacquered or covered with polished metal. The circular door with a concave section is made of curved multilayer wood, internally lacquered, while externally it is covered with slats of solid wood. LED lighting embedded in the holder's perimeter. A remote control allows to turn on and regulate the light. It can be installed into the wall or hung on any wall.
