Product Description

Watercolors in the Francis mirror draw on the unexpected beauty found in old, oxidized mirrors and the poetic grace of colored pigments blooming in clear water, the likes of which can be seen in painter's studio. Each piece in the stunning mirror-table series has its own unique watercolor. The narrower the mirror, the more vibrant and animated the color. Watercolor designs are hand-painted by the designer before being digitally altered to obtain the desired effect of multiple, semi-transparent, tinted layers. The watercolor designs are printed onto the base of the mirror which is then laminated, thereby giving the finished FRANCIS mirror-coffee table greater visual depth and making it much more resistant. The collection includes: mirrors, coffee, and side tables. Designed in 2019.
