Product Variants

- Francis Wall Mirror - Large (#30976)
- Francis Wall Mirror - Small (#30977)

Product Description

Wall mirror evolved from an experience with pigmentation. The shifting colors on the periphery suggest the oxidation of antique mirrors or hues on a makeup palette. This observational design, with vivid and deep colors, is reflected on the

surface of each mirror by digital printing. The back of the mirror, slightly convex, is suspended through the center, which allows the mirror to fall forward such as with Venetian mirrors. The collection includes: mirrors, coffee, and side tables.

Quick Ship version available **here**.
