### Product Description

The G10 lamp collection, designed by the icon Greta M. Grossman in 1950, is another of her undiscovered designs. The lamp collection is characterized by its distinctive lampshade, giving the space a pleasant light, as well as its rough surface and contrasting polished brass details, which are all defining the lamp's unique look. The collection, consisting of a floor lamp and a pendant, has a refined luxurious charm combined with an industrial character, which gives an expression of being a classic yet contemporary design. The shade can be tilted. Black textile cord. Switch on shade. The collection includes a floor and pendant light.
