Product Description

The wool threads are produced by a family business in the Tyrol, with each lamp hand-knitted by a collective of home-based workers in the Netherlands. A natural treatment is applied, making the wool flame resistant and resistant to moth and mite infestation. The designer, Pudelskern revives centuries of cultural history and shapes them into new forms. A rough and impressive landscape is woven into living objects. Lampshade made of large hand-woven wool yarns. The wool, fireproof and moisture-resistant, goes through a natural treatment against moths and mites. Light bulb

not included. Designed in 2010-2012.
