Product Description

Modern comfort armchair is part of a collection of sofas with unique design features, the arms completely occupy the depth of the armchair with aluminum legs. Frame made of solid and plywood, padded with non-deformable expanded polyurethane of differentiated density, and sprung with interwoven elastic belts. Cotton lining coupled with polyester fiber. In the version without a skirt, the foot is bridge-shaped: burnished cast aluminum series and polished cast aluminum, upon request. In the version with skirting (sofas and armchair) the foot is cylindrical. Available in 2 backrest versions; version A comes with rectangular backrests along the back of sofa and version B comes with multiple loose cushions. Leg height is customizable. Backrest-cushions type "A" with canalized feather and polyurethane insert; Backrest-cushions type "B" entirely made with canalized feather. The

standard seat cushions are made with canalized feather and polyurethane insert with differentiated density. The seat cushion with feather and polyurethane provides the typical special comfort of a feather, as well as a pleasantly used aspect of padding. Differentiated density polyurethane and polyester fiber seat cushions are available upon request. In both versions, and according to the modules, the seat cushions can be either unique or divided. All padding is fully lined with white fabric. Available with or without a skirt. The collection includes an armchair, sofa, and sectional sofas. Designed and handmade in Italy.
