Product Description

Handcrafted glass pendant lights made in Milan, Italy. A new usage of the two glass-wall concepts. The center is a hanging light-giving globe. A shining sphere suspended in the air... Magical effects. The light source is protected by a second shell, we can get closer. This may be the true charm of the Happy Pill lamp designed by Corrado Dotti. Available in clusters of 2-3 or 4-18 pendants. Single pendants are supplied with a textile cable and chandeliers are supplied with a transparent electrical cord.
