Product Variants

- Jar RGB Pendant - Cluster of 7 (#21002)
- Jar RGB Pendant - Cluster of 3 (#21003)

Product Description

Jar RGB is a lighting project connecting thin colorful glass blowing techniques and the idea of RGB color mixing. Using white glass for one of the hanging jars allows it to turn into a large light bulb generating the light for the entire fixture. Observing one jar through another and the space surrounding them gives one a unique and everlasting discovery of color superimposition. *UL Listed. Hand made in the Czech Republic.
