Product Variants

- Jar RGB Pendant - Cluster of 3 (#53241)
- Jar RGB Pendant - Cluster of 7 (#53242)

Product Description

Jar RGB is a lighting project connecting thin colorful glass blowing techniques and the idea of RGB color mixing. Using white glass for one of the hanging jars allows it to turn into a large light bulb generating the light for the entire fixture. Observing one jar through another and the space surrounding them gives one a unique and everlasting discovery of color superimposition.
