Product Description

Kyo is a small armchair that interprets the design's history in an original way. Curved and embracing forms match with a structure consisting of iron elements with a brushed antiqued brass effect. The distinctive horseshoe-shaped base supports a series of thin metal profiles, joined to the soft and embracing padding of the seat and backrest. The result is an elegant, essential and timeless chair. The seat and the backrest have a wooden structure with foam rubber padding, upholstered with velvet or soft leather. Please inquire for size and finish customizations. Hand made in Italy.
