Product Description

The Lightline collection, in its every component, is a celebration of glass as an artistic medium. The concept of a line of light is rooted in the varying characteristics of the material and its forms. The design employs the effect of light uniformly dispersed over a sandblasted surface, which in profile creates the impression of a luminous line. The LED light source is embedded in the base beneath a metal cover topped with a triplex-opal glass diffuser. The upper surface, sandblasted by hand, is treated with a special nano-coating to prevent the accumulation of dust and smudges. The collection

comprises four sizes of table lamps that cast a light of intimate character. Bulb included: GU10- 5W 2700K 336LM.
Handmade in the Czech Republic. Introduced in 2016.

Product Attributes

Dimensions: S: 13"Diam. x 13"H

M: 15"Diam. x 15"H
