Product Description

High and low oval-shaped tables in tempered extralight glass, with faded and irregular decoration which takes on the color and veins of marble. The surprising image changing effect makes the veining look dynamic and variable depending on the viewpoint. Available in two different colors, one with green hues and the other one with pink-beige hues. The decoration is enclosed by a coordinated color frame painted on the glass perimeter. The collection includes dining, coffee, side, and console tables. Hand Made in Italy.
