

## Network Shelving

**Product Categories:** [Shelving](#), [Storage](#)

**Product Page:** <https://propertyfurniture.com/product/network-shelving/>

### Product Description

Bookcase Network, designed by Neuland Paster & Geldmacher, is part of a project aimed at creating a new and multi-functional bookcase. A light bookcase – of a slender and modular structure – with floating panels, made of form leatherette which can change the configuration in line with the metallic structure of the bookcase, allowing a total customizing of the composition at the tip of one's hands. Painted metal bookcase. Removable thermoformed shelves in eco-leather, equipped with a magnet for locking on the structure of the bookcase. Two or more modules can be combined and joined by means of a clip supplied in the assembly kit. Adjustable feet. Shelving kit includes 5 shelves. Designed in 2014. Handmade in Italy.
