### Product Description

The shape is inspired by the sea creatures, statuesque and sinuous, with tentacles to support the top. It seems to be an improvised table, with a light and minimal look, where the thin stands, apparently posed in a casual way, oppose themselves to the rigor of the round plate. It is a table out of the schemes, that can be placed in any living space, as an element to be combined with other classical design pieces. Structure in lacquered metal, top in black Marquina or white Carrara marble, in the same color of the structure. Suitable for contract use. Designed in 2009. Handmade in Italy.
