Product Description

Opal is a family of translucent globes using our own custom recipe of tinted white opalescent polycarbonate. Semi-translucent, they maintain an ethereal ghostliness in the daylight and at night form a perfectly illuminated sphere. Coupled with our new custom-made Tom Dixon LED, the Opal range emits a soft, diffused and flattering light. The gentleness of the light bulb shape is achieved through a blow-molded custom combination of opalescent plastic. Designed in 2018.

Light Bulb: 6W LED included. LED and driver are replaceable via Tom Dixon.
