Product Description

Part wall art, part functional decoration, the Orizon mirror is a window with a view hanging from your wall. An ocean-like rippled surface blends into a colored sky with ever-changing reflections. The ceramic piece is glazed by hand and then baked at different firing temperatures to create unique hues and nuances. The combination of vitrified ceramic and colored mirror conveys a contemporary look while preserving the human touch of traditional craftsmanship. Weight: 15 Pounds. Made in Italy. Designed in 2019.
