

Oviraptor Light

Product Categories: [Lighting](#), [Table](#)

Product Page: <https://propertyfurniture.com/product/oviraptor-light/>

Product Description

Named after the dinosaur egg fossil, Oviraptor resembles a huge egg with a cracked shell made out of glass and marble. The polished brass base adds glamour to this lighting piece which can be used as a table lamp. The white opaque glass and marble shell diffuse a pleasant, warm light. The marble part is a handmade sculpture and is connected to the brass base. Introduced in 2016. Handmade in Turkey.
