Product Description

The Pad lounge series attains its special character from the combinations of materials, tactility, and shape. Molded shells in oak veneer stand in contrast to a soft padded front, while a metal frame adds strength and airiness. Pad lounge chairs are made up of a solid steel frame, in which sections of strong oak veneer form the backrest and seat. The veneer is fitted with molded PU foam, which is then upholstered by skilled upholsterers. The shape is boxy, yet perfectly rounded; Organic texture and warmth flirt with cool shine in the meeting of wood, textile, and steel. The front-padded design is as comfortable as it is elegant, making Pad the perfect addition to the sophisticated lounge or lobby. Suitable for contract/high traffic and hotel environments. The collection includes: high and low back armchair. Designed in 2018. Handmade in Lithuania.
