### Product Description

Soft and welcoming, Plus sofa is made up of elements with rounded shapes, for a comfortable way of living at home or in a lounge area. The two main characteristics are, an extremely simple linking system with brackets for flexible configurations and the introduction of the screen partition that can divide spaces or create subtle privacy or become a kind of backrest which surrounds the sofa following its curve. Modular seating in fire-retardant injected foam with removable fabric. Seats, backrests and armrest, also with HPL or wooden top, can be linked with brackets. Creating many permutations of tailored configurations for residential environments or public areas. Available with or without throw pillows. Made in Italy.
