Product Description

Rideau Boiserie is a system of panels with the pattern that recalls the decoration of the Rideau cabinet. Made of panels with elements in veneered curved plywood. Upon request, we provide a multilayer wood counter-frame, to be wall-fixed, on which the decorative panels are hanged. With the counter-frame a cavity space is created, useful for the cables' passage and the wall ventilation, and also for an easy removing in case of any maintenance. Please inquire for size and finish customizations such as LED and flush to door panels. Hand made in Italy.
