Product Description

Soap bubbles, childhood memories. The LED light passes through a glass bubble to refract on a mirror in a game of continuous rebounds. Glass is not only a diffuser but also an almost invisible intermediary between the light source and the reflecting element. The simplicity and lightness of glass become the main features in three different sinuous shapes enriched by crystal, smoke, amber and light amethyst tones. The collection includes: suspension and table lights. Light Bulb: LED 12.5W, 1650lm, 3000K(Dimmable). ETL listed. Designed in 2019. Handmade in Italy.
