Product Description

Rituals translates the luminous magic of oriental rice paper lanterns into the precious physical form of blown glass. The special glass working method, with irregular lines that mark the surface, creates a delicate, fascinating decoration that produces a unique sensation of chiaroscuro and a soft and gentle light. The mount of Rituals wall resembles the pedestal of a work of art. Its upside down L-shaped form offers different solutions: it hosts two glass sizes, can take two different positions and is also available in a version that supports two diffusers. Double shade on request. The lighting collection includes suspension, wall, table and ceiling versions. UL listed.

Bulbs: 120V 1 x LED Retrofit/Fluo 15W E26 or halogen 1 x 60W E26 (Not included)
