Product Description

Steel Rondo made in FiDU technology is as unique as the reflections in them. The new modular collection of mirrors gives another dimension of space and creates a unique story on your wall. Easily modifiable material allows us to create an entire collection of solids elements, so different and yet beautifully integrated with each other. Some of them are characterized by geometric nature and respect for the proportions, while others are distinguished by unique, bionic form. Thanks to the common factor which is the FiDU technology, the worlds of design, art, and technology are combined. The

free deformation with the inside pressure of the mirrors gives everyone a special and unique form, revealing the true face of the metal. Also available in Gradient finishing(various colors) or Gold finishing. Made in Poland.
