Product Description

The RUE headboard encapsulates the clean lines and Nordic feel of the GamFratesi brand. Understated yet generous in its rounded forms, the headboard shows character with its use of different thicknesses to create a carefully calibrated arrangement of overlapping elements. Made from a structure in bent beech-wood, the headboard is available in two versions. In the first, the insert in woven cane – an iconic GTV detail – is doubled up by the soft padding above, while in the second the woven cane is used for the internal elliptical insert, which sits on the outer frame. Designed in 2019. Handmade in Italy.
