Product Description

Shiba upholstered chair with wooden legs. The internal structure is in wood covered in expanded polyurethane of varying high density and a highly elastic top layer. The external cover can be customized by choosing from fabric, leather, or eco-leather. The particularity of the stitches on the backrest and the metal detail enhance its creative design. The feet are in wood veneer in black ash wood or Italian walnut. The enchanting lines of the Shiba chair and its ergonomic seat ensure maximum comfort. It is perfect in combination with an important living-area table. Suitable for

contract. Handmade in Italy.
