### Product Description

Spectro arises from the idea of

giving shape and volume to light. However, since it is not possible to reproduce it as a color, it has been fractured into a spectrum of refined and elegant shades, giving it a stage presence in a play on rhythms and shapes. And just like light which transforms every surface that it illuminates, Spectro transforms environments and adapts to every space with infinite combinations, as if the light were being fractured by a prism of one's personal taste. Three sizes of doors to mix and match. Various base option to choose from. Designed in 2018. Handmade in Italy.
