Product Description

A high table in laminated and glued glass. Through a special printing process, the walnut essence is reproduced by transparency onto the glass, so that a refined and experimental fusion between two such different materials is obtained. The wood, supported and absorbed in the extralight glass, transcends its inherent material source becoming a sublimation and ethereal emblem. Available in the finishes clear or dark walnut, and only this table in the Sublimazione Collection is available in transparent extralight glass (with tempered top). Available in a rectangular table or a square

table. The collection includes coffee, side and dining table. Handmade in Italy.
