

Tree Branches Bench

Product Categories: [Benches](#), [Seating](#), [Stools](#)

Product Page: <https://propertyfurniture.com/product/tree-branches-bench/>

Product Description

The Tree Branches long bench is entirely handcrafted in brass with a hammered technique similar to the irregular details of real branches. The top in Mongolian Lamb fur completes this creation by evoking the wild side of nature. Thought to be unique but versatile, this bench is a Portuguese luxury furniture piece that fits either modern or rustic interiors and it is also available in brushed brass, copper or steel finish. Available in two sizes. Handmade in Portugal.
