Product Description

In our sculptural glass furniture pieces, we use the interplay of colour through transparency and light to bring an animated dimension to static objects. The Trichroic Table has a tabletop that consists of three layers of glass with a layer of coloured bands and a layer of white opaque bands between the glass panels. By moving alongside the table, the top shifts subtly in colour through the motion parallax between the different layers. Limited Edition: edition of 5 + 2AP. Designed in 2018. Handmade in the Netherlands.
